THIS IS UNEVALUATED INFORMATION

25X1

1. The area known as the Second Camp Area of the 3rd Tank Div. was located 1½ km. north of Benatecka Vrutice and one kilometer north-west of Milovice N 50-14, E 14-54. It included an area three kilometers from east to west and north to south and was directly subordinate to the 3rd Tank Div. The commanding officer of this camp was Lt. Col. Gejsa BOBROUSKY, an armored officer. Located in this area was the 103rd Mecz. Regt., which consisted of three mechanized battalions and one artillery battalion.
2. Security measures employed at the Second Camp Area are described in the legend to sketch of the area Encl. A. In addition, this camp employed the same password system during the hours of darkness as that employed by the First Camp Area 25X1

Point #69. Classroom Bldg.: description and dimensions same as for billets previously described Pt. 57; troops of the Chemical, Engineering, Reconnaissance, and Signal Units were instructed here.

#70. Fence: steel; 40 x 25 x 2 m.; enclosed the emergency storehouses Pts. 71 through 74 of the Regt.

#71 through 74. Emergency Storehouses of the Regt.: description and dimensions same as for warehouses previously described Pt. 27; stored engineering, signal and chemical equipment (gas masks and clothing), as well as rifles, light, heavy, and submachine guns, ammunition and other equipment; 25X1  
25X1  
 this equipment was for emergency use only; during daylight hours, the area was guarded by two armed men; at night, the entire area enclosed by the fence Pt. 70 was illuminated and two additional guards were posted.

#75. Guardhouse and Utilities Shop: description and dimensions same as for warehouses previously described Pt. 27; one-half of the building was used as a guardhouse which contained a room for prisoners and sleeping quarters for 36 guards; the other half of the building consisted of a repair shop.

#77 through 81. Quartermaster Warehouses: description and dimensions same as for warehouses previously described Pt. 27; contained articles of normal issue except for arms.

#82. Wooded Area: restricted; contained the warehouses mentioned above; was enclosed by a steel fence; security measures here were the same as for the emergency storehouse area Pts. 70 through 74.

#83. Fence: steel mesh; two meters high; enclosed the entire wooded area Pt. 82.

#84 through 87. Garages: single-story, wooden buildings, treated with a brown preservative; 50 x 6 x 6 m.; had tar-papered, low-pitched, gable roofs; an unknown number of armored half-tracks, trucks, cars and motorcycles of the Hq. Co., 2nd and 3rd Bns., were kept here.

#88. Motor Pool Dispatcher's Bldg.: single-story; gray; stuccoed-brick; had a tar-covered shed roof; all vehicles leaving the motor pool were checked as to time out, operation, and mileage.

#89. Motor Pool Entrance: a railroad-type barrier eight meters wide.

#90, 91, 94 and 95. Garages: description and dimensions same as for garages described above Pt. 84; an unknown number of fld. arty. guns, 86 mm. guns, 120 mm. howitzers, and vehicles of the 1st Bn. were kept here.

#92. Grassy Area: a combination athletic and drill field; 1,500 m. long and 70 m. wide.

#93. Parking Area: dirt; 400 x 50 m.; used for parking the vehicles. The security measures here were the same as for the emergency storehouse area Pts. 70 through 74.
